

Travel planner screens

Mobile (390x844) and desktop (1440x900) layouts with separate navigation models: a bottom tab bar on mobile, a persistent left rail on desktop. Every colour, radius and font here is the shadon preset: neutral base, orange primary, radius 0.45rem. Inter for UI and JetBrains Mono for times, codes and labels.

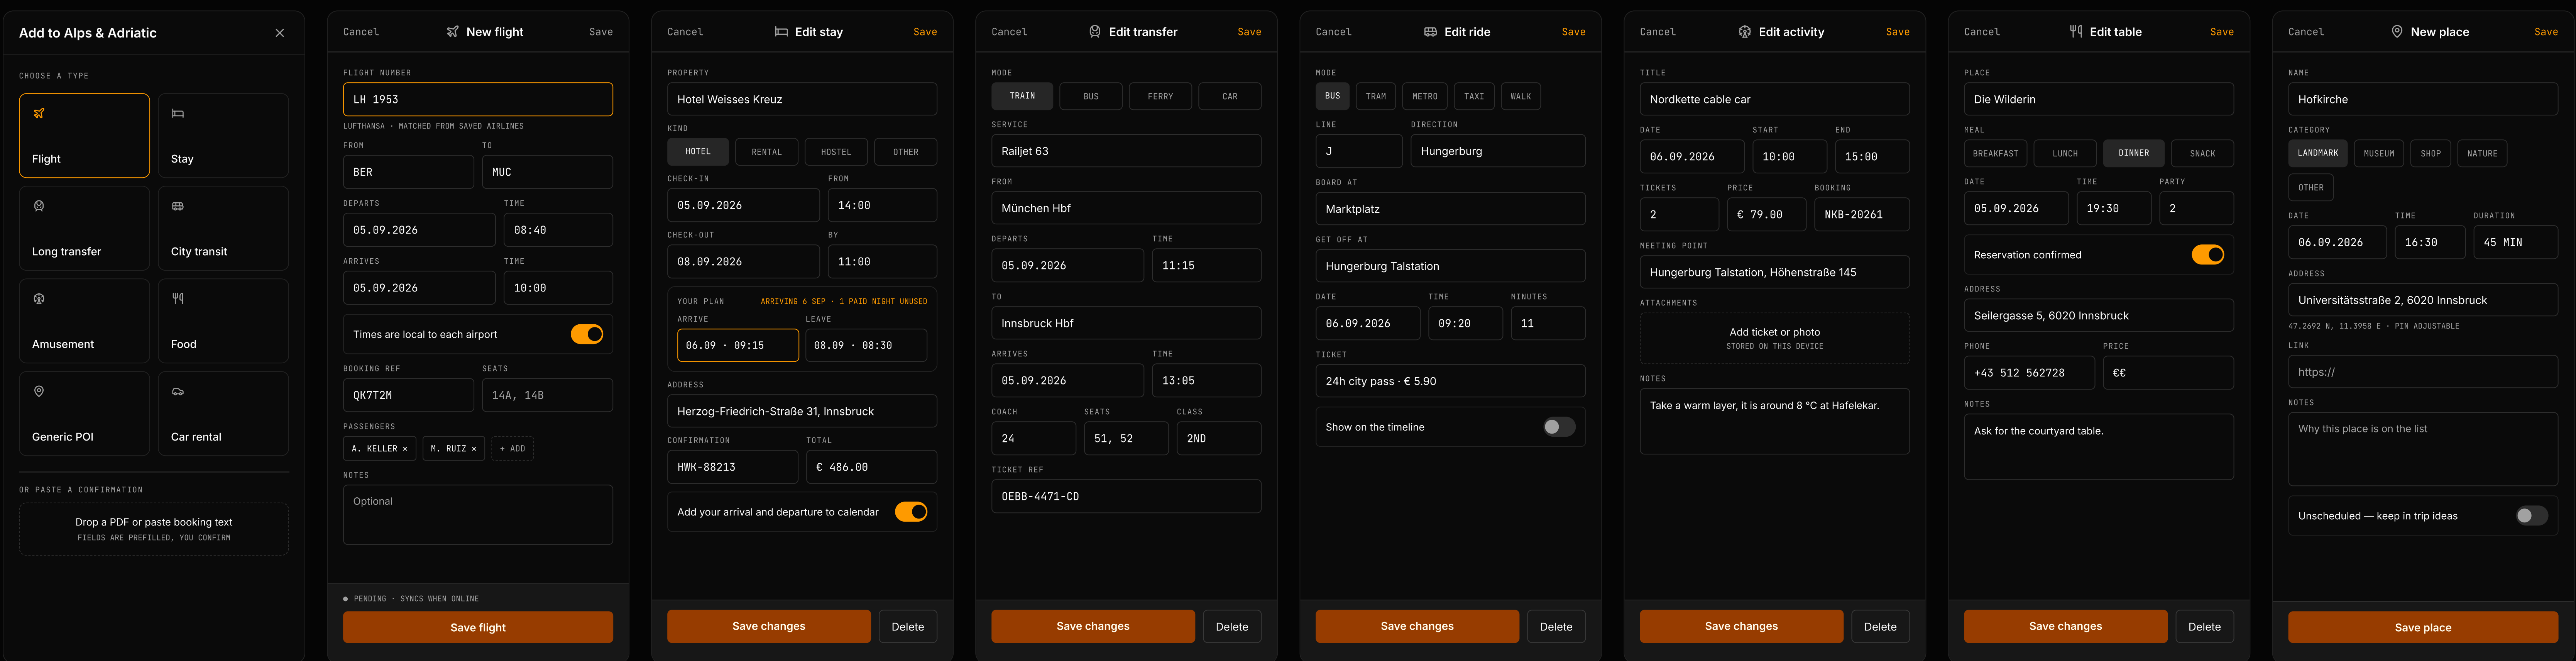

Mobile — core

Mobile — itinerary detail, view

Mobile — create & edit
